ABOUT THE CENTER

Five laboratories, one closed evidence loop

中心簡介 · センター概要 · 센터 소개

A college-level research center of the College of Bioresources and Agriculture, National Taiwan University, opened in April 2024. Five adjoining laboratories on the third floor of the Landscape Building each take one step of a single protocol: measuring how people respond to landscapes, designing healing environments, validating them in immersive virtual reality, and delivering interventions to whole groups at once.

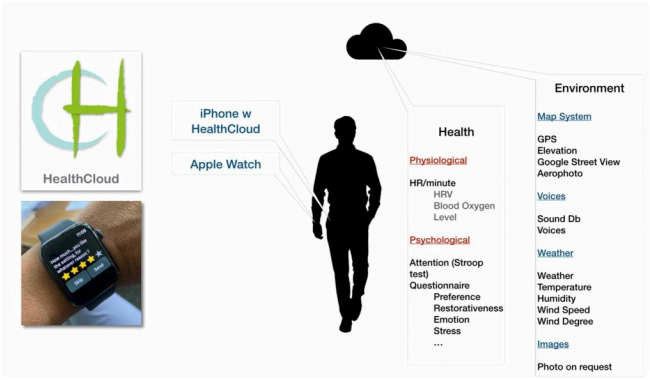

臺大生農學院院級研究中心，2024 年 4 月開幕。造園館三樓五間相連的研究室，各負責量測、設計、驗證到處方的一段。

国立台湾大学 生物資源農学院の研究センター（2024 年 4 月開所）。造園館 3 階に並ぶ 5 つの研究室が、測定・設計・検証・処方の各段階を担います。

국립대만대학교 생물자원농학대학 연구센터(2024년 4월 개소). 조원관 3층 다섯 실험실이 측정·설계·검증·처방을 나누어 맡습니다.
